5. Miscellaneous Services (N)

5.1 Billing Name and Address (T)

The Billing Name and Address (“BNA”) provides the billing name and address of an End User who has an Automatic Number Identification recorded by the Customer (interexchange carriers, operator service providers, enhanced service providers and any other provider of interstate telecommunications services) for telecommunications services rendered by the Customer to its End User. The receipt of this information will allow the Customer to provide its own billing to End Users that may not have established a formal relationship with the Customer.

BNA is provided for the sole purpose of permitting the Customer to bill its telephonic communications service to its End Users and may not be resold or used for any other purpose, including marketing activity such as market surveys or direct marketing by mail or by telephone. The Customer may not use BNA information to bill for merchandise, gift certificate, catalogs or other services or products.

5.1.1 Undertaking of the Company (T)

(A) All requests for information will be by facsimile. (T)

(B) The Company will specify the format in which requests are to be submitted. (T)

(C) The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the Company’s records. BNA information will not be provided for those End Users who have requested that their BNA not be disclosed for collect and bill to third party calls. (T)

(D) The Company will provide the most current BNA information resident in its data base. Due to normal End User account activity, there may be instances where the BNA information provided is not the BNA that was applicable at the time the message originated.
